ANTI-VANDAL GLASS

Our state of the art Anti-Vandal Glass protects our displays from damage, ensuring their longevity and uninterrupted operation.

Enjoy a crystal-clear view without any surface scratches, keeping your display brand new.

Rest assured knowing your displays are protected from deliberate harm.

Security Key

Introducing the security key - your display's anti-theft protection guardian.

Experience peace of mind like never before.

ULTRA
High **Quality**

What is DPB?

The DPB provides a 5V (3A) power supply that can be used to power various types of media players.

For media players that require more power or a different voltage, the display controller also features a 24V (4A max) out.

CARD | 3 X USB | OPTIC | ETHERNET | HD | MIC

Communication

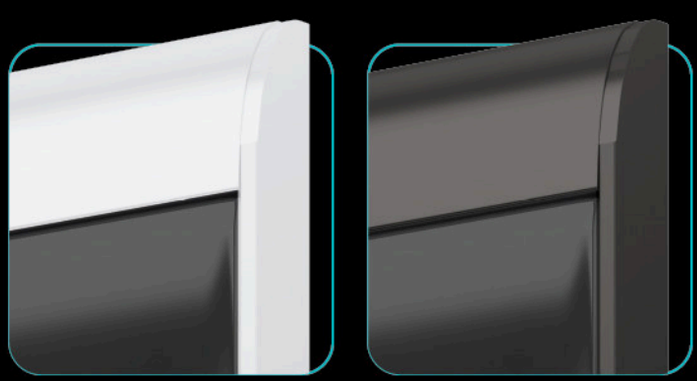
All our mediaplayers have direct communication with the CMS in the DiMare screen, giving you complete control to use the unique features of the content management system.

Custom Mediaplayers

If your application has specific demands (hardware / OS), please contact us so we can investigate if this configuration can be used in combination with our DiMare screens.

Aluminium Frame Finish

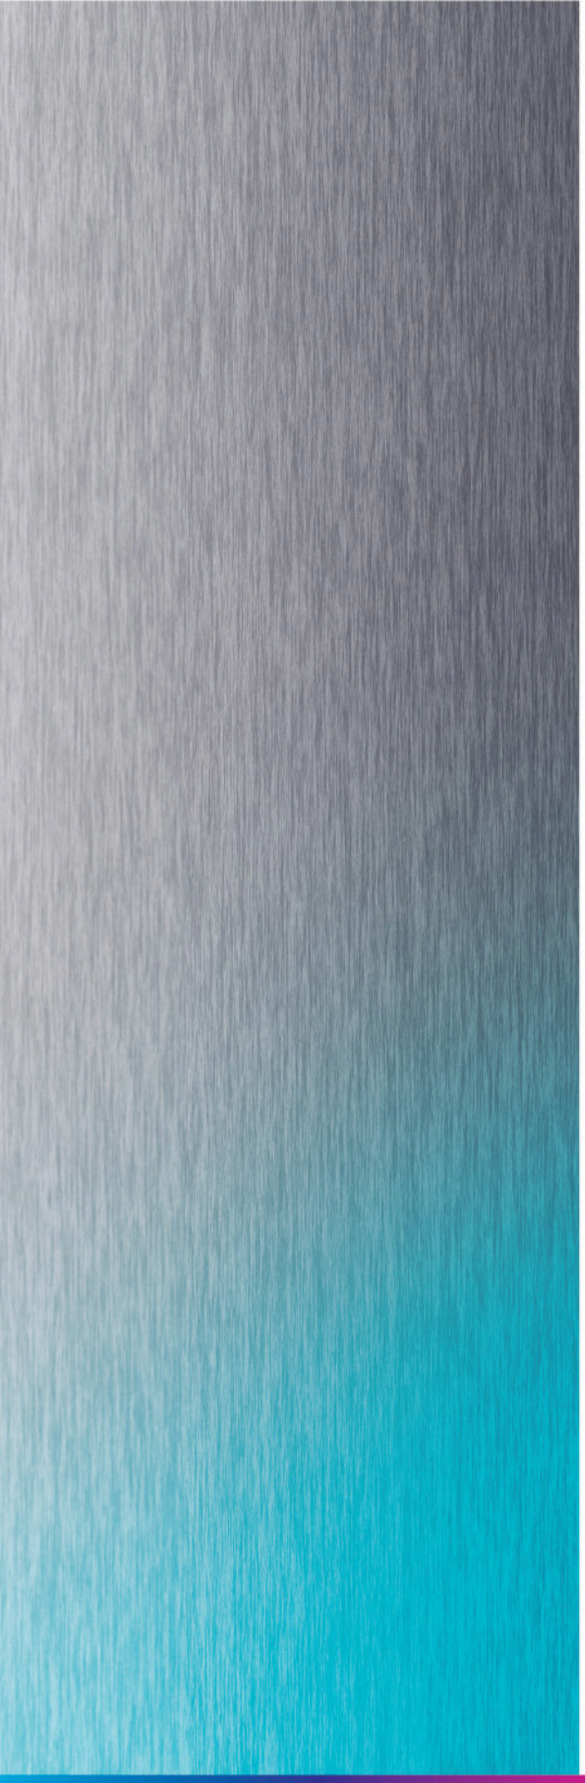
The DiMare multimedia displays with aluminium frame (narrow and wide) are powder coated in black or white color. They can optionally be supplied in other colors and finishes.



Optional extended warranty of **4 years.**

Powder coated frame

Powder coating in a color of your choice is possible.
Subject to availability of the color you require.



Brushed
Aluminium Frame

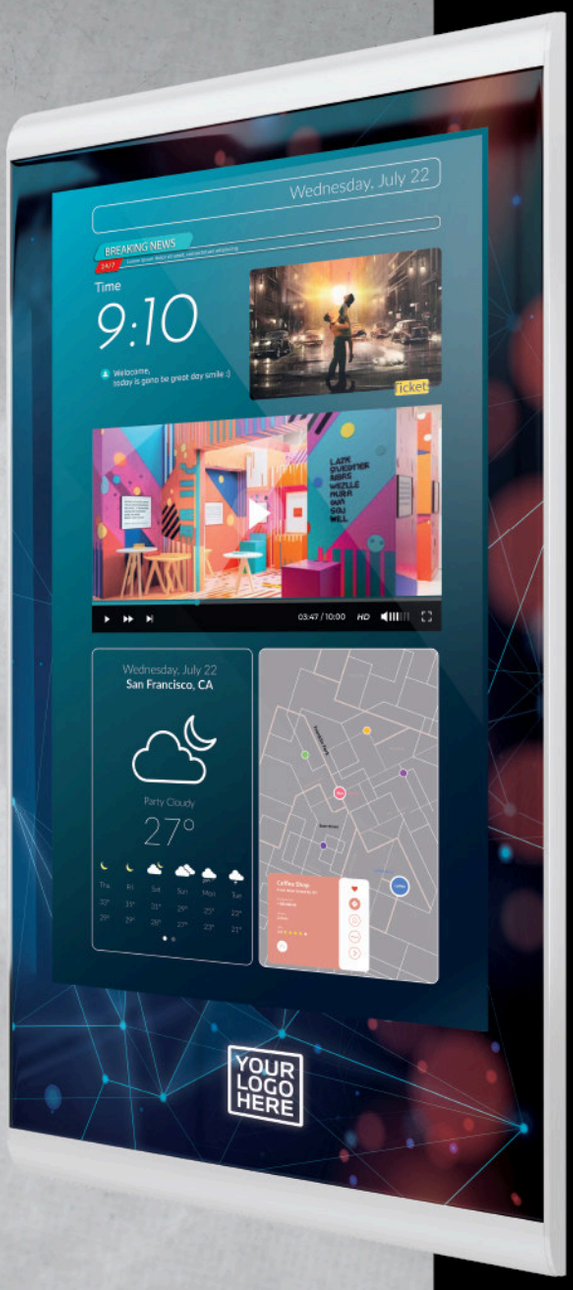
Optionally, you can choose our brushed and anodized finish for the aluminium frame
You can choose from 5 standard colors.

Polished
Aluminium Frame

Optionally, you can choose our polished finish for the aluminium frame
You can choose from 5 standard colors.

Specific color of choice

Aluminum frames can also be delivered in other colors.
Custom color requirements are subject to availability.



Custom Design Cover

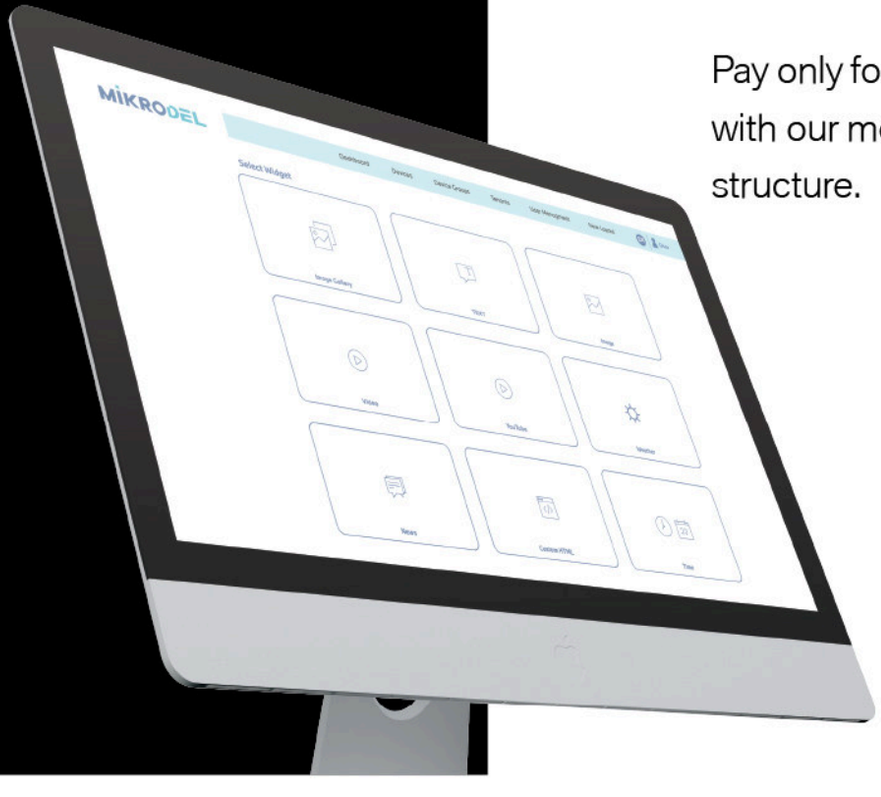
The cover of your display can be customized with you own design, color and logo.

Custom Size Cover

Multiple displays can be grouped together behind one custom size cover.

Our designers can work with you on developing your custom cover.

- **Screen managment**
- **Simple loops**
- **Extended editor**
- **Schedule content**
- **Live Data integration**
- **Sensor integration**
- **Advertisment**



Content Management System

Our system has a modular structure designed for versatility and flexibility.

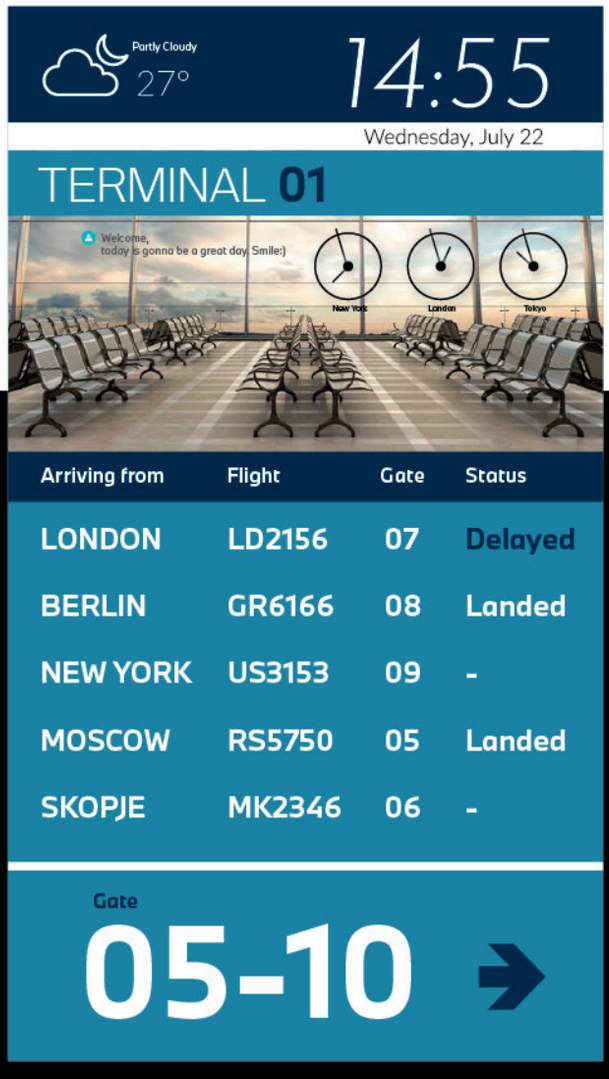
Expand our basic content layout with additional modules.

Pay only for what you need with our module-based pricing structure.

Although DiMare screens can be fitted to any CMS and any OS, we optionally offer our screens with Mikrodel.
Mikrodel is a very versatile solution and suitable for applications such as smart buildings, internal communication, digital signage, advertising, retail and much more.

Uses Of Digital Signage Systems

Airport example



Public areas: Information such as news, traffic density information, weather, maps and navigation systems.

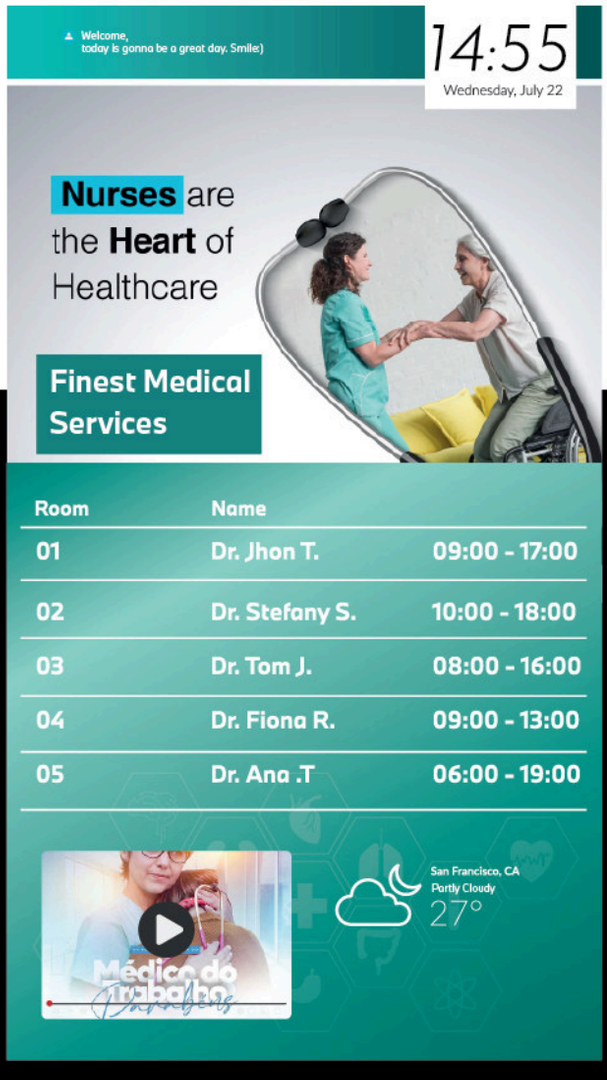
Marketing: Promotions, creating ambience, product presentation screens, service catalogs.

Tourism: Navigation, city information, digital guides, top-rated tourist attractions

Retail: Self-service payment kiosks, product display in stores, smart mirror systems.

Hotel example

Hospital example



Education: School and campus navigation, digital bookshelf in libraries, smart classroom systems, classroom door labelling, digital attendance tracking kiosks, smart board systems.

Health: Queue system, doctor's room information, patient / examination information, health and product recommendations.

Restaurants: Self-service systems, digital menu boards, self-service order kiosks and digital food menus.

Business: Information sharing, meeting room reservation systems, meeting coordination, training, conference.

and **much more** ...
